Greek, Russian and British Squadrons Hover About Turkey and

Sultan May Expect Interesting Time.

PARIS, Nov. 3 .- This morning M. Delcasse, minister of foreign affairs, telegraphed M. Baptist, counselor agent for the French embassy in Constantinople, directing him to present today to Tewfik ing and fellowship which must come. Pasha, Ottoman minister of foreign affairs, a note asking how the Turkish government proposed to pay the Lorando claims and demanding the execution of the sultan's various treaties and which in some cases have not been respected and in others have been encroached upon by Turkey.

This declaration of what has been done bears out the statement made yesterday regarding the intentions of the French government. Admiral Caillard is expected to reach his destination tomorrow. The foreign office has received no news from him since his division left the other division of the Mediterranean squadron four

It is pointed out that the absence of news is not surprising, as the instructions to Admiral Caillard were to steer due south and to avoid passing in sight of Bonifacio, Corsica or traversing the strait of Messina in order to prevent his movements being signaled. The vessels of the division carried only a normal supply of coal, but this would be much more than enough to enable them to steam 1,500 miles, the estimated distance they must cover before reaching their destination.

Reinforcements Enroute.

It is expected that Admiral Calllard will be joined en route by the torpedo cruiser Condora, which is stationed in Cretan waters, and may be met by the torpedo dispatch boat Vantour, which is stationed at Constantinople. It is also probable that the cruiser Admiral Charner, which arrived at Port Said October 31, from the far east, is being held there in order to join Admiral Caillard if needed.

It is further reported that three other warships are held in readiness at Toulon to reinforce him should their presence be necessary.

Dispatches from Rome assert that the second division of the Italian Mediteryesterday, left for Turkish waters for the supposed object of counterbalancing the French naval demonstration and will join the first division, which has been cruising in the eastern Mediterranean some time. It appears also that the Greek warships Psara, Hydra, Spetsia and Eurotas are now at Smyrna, where is also the Russian

Mediterranean squadron. It is believed that the British squadron now at Piraeus, Greece, will be ordered to proceed to Beiroui. Syria.

Officers Called on Duty

According to dispatches from Toulon all the officers and men of the garrison now on leave of absence have been ordered to rejoin their respective commands immediately. Three transports are preparing to receive troops. The cruisers Du Chayle and Cassare ar-

ready to sail at a moment's notice and the sattleships Bouvet and Jaureguiberry will be ready Tuesday The work of repairing the docks was con-

linued throughout yesterday.

The bill was then read in Spanish.

Spanfard Opposes Bill.

Senor Sabell Reyes, the Spanish journalist who has been here for several weeks, said he was opposed to the bill and objected generally to the imposition of the death penalty for political crimes. He suggested that persons committing the offenses against which the bill was aimed should be deported to the United States and de-clared that Italy and Portugal had enacted the most reasonable existing laws dealing

with the matters under consideration, Commissioner Wooster asked him if he considered the killing of King Humbert a political crime. Senor Reyes said: "Nothing political is criminal." Vice Governor Wright asked him if he considered the killing of President McKiuley a criminal act. Senor Reyes said: "I bave already made it clear that there is no such thing as a political crime."

The commissioners indignantly ordered him to take his seat.

Senor Buencamino, on behalf of the federal party, objected to the bill. Senor Bautista, at one time president of sections of the proposed law had created a panie in Manila; that Spain had no such law; that in his opinion private citizens ought not to be compelled to divulge matters within their knowledge; that the doctrine of treason ought to apply to officials only and that the bill as drawn offered a great opportunity to blackingil. discussion will be continued tomor

No Organized Opposition. For the first time in several years there s no organized opposition in the party to the republican county ticket or any of the element made an effort to defeat the legistative ticket, but instead of a decreased majority the entire ticket received a record-breaking vote. Two years ago a fac tional fight which originated in the nominating convention resulted in the defeat of one county candidate and four years ago open bolt caused the election of the fusion candidate for register of deeds. This year there is no factional fight and so far as known there is no organized movement of republicans against any one or more

candidates of the party. One of the party's nominees has the disadvantage of running against a candidat who is more widely known than himself but otherwise his chances are as good as these of any other republican candidate. The fusionists are striving to elect J. J. making practically no effort on behalf of

the rest of their ticket. The registration closed in Lincoln last year 7.623 names were recorded and in 1899 the registration was 5.490. A comparison shows that the registration this campaign is about 1,000 less than usual in off years.

Pointed Answer to President Hayward's Defense of the Board.

HOW COSTLY PEARSE IS TO TAXPAYERS

Extravagance, Flagrant Acpotism and Rank Favoritism Call for Protest of the Voters at the Polls.

Mr. C. S. Hayward, president of the Board of Education, has been accorded the courtesy of The Bee's columns to publish schools. Mr. Hayward attempts to explain "In view of the active discussion of the and controvert the charges embodied in expediency and practicability of the broader my speech before the Fifth Ward Repubapplication of the principle of commercial lican club by specific denial that the board reciprocity as a means of expanding for uses star chamber methods in conducting eign markets for American products, with- its business. He declares that the busiout sacrificing the interests of any of our ness of the board is not done by secret ballot and points to the rule that in filling vacancies in its membership requires each board, invite and request all members of member to announce the name of the person for whom he votes. In the same breath he declares that the board cannot legally elect any officer, teacher or janitor by open vote, because the state law provides that the election "shall be by ballot."

Mr. Hayward evidently is not aware that oting by ballot does not necessarily mean a secret ballot and there is nothing in the law to prevent members of the board from registering their choice on the ballot the same as is done by stockholders in the election of directors. The corporation laws of Nebraska require the election of directors by ballot, but every stockholder votes his choice on a paper ballot that also contains his name with the number of shares voted.

The Rule of Three. In protesting against star chamber

methods as practiced in the board I aimed to call attention to the pernicious system by which the business of the board is prearranged in secret conclave by a small minority. The Board of Education consists of fifteen members and eight votes absolutely control. It is an open secret that eight members agree to combine and to stand for whatever a majority of the eight demand. .Thus five members direct the eight and the eight control the fifteen. They Robinson poisoning case, the most noted dictate not only the board's policy, but also sensation that has ever been heard in a name the committees and as most of the important committees are made up of five members, three control each committee and the combine makes sure that the controlling power in each committee is made up of the same ruling spirits. In other words, the board is governed by the rule of three, who work in secret and cover their tracks behind the caucus and secret ballot. If this is not a star chamber system I do not know

what the word star chamber means. Mr. Hayward's labored effort to convince taxpayers that the school taxes are much lower now per capita of school children than they were twelve years ago is refuted by the tax receipts of every Omaha property owner. The per capita figures are deceptive and calculated to befog instead of enlighten the taxpayer. The figures furnished by City Treasurer Hennings speak

for themselves. Financial Record.

On January 1, 1899, the outstanding school warrants bearing 7 per cent interest into the country and escaped warrants bearing 7 per cent interest Section Foreman Martin fired a shot amounted to \$101,129.66; on January 1, 1900, \$156,125. through the speeding engine and from the country in the engine it is The treasurer's estimate indicates that the outstanding floating debt at the end of the

year will be \$155,000. The amount of taxes levied and collected for the school year in 1899 was \$115,782-13; in 1900, \$141,143.82; for 1901, with the last

years ago. These figures show that while the school board secured \$71,000 more from the taxman at a political meeting and leaving the payers in 1901 than it did in the year rants on July 1 of this year was only \$2,500 Besides this \$71,000 additional revenue from direct taxation the school board this year has had a bigger revenue than ever in recent years from police cour

> The tax levy for school purposes has been nearly doubled, ostensibly to red ce the floating debt, yet the floating debt is practically where it was before the present station pending the arrival of her father good board took control.

The claim is made by Mr. Hayward that the extra heavy school tax imposed list year was to wipe out the deficit created by the refusal of the former council to levy sufficient taxes to meet the necessary expense of conducting the schools. If this is rue why has not the deficit been reduced by at least \$70,000? Why should the float ing debt at the end of this year be as large as it was at the end of last year before the extra taxes were levied? What right has the school board to overreach its resources and create overlaps any more than any branch of government?

Taxpayers Taxed Against Themselves. Mr. Hayward's complaint about the failtre of the council to provide all the board asked recalls a very singular performance The Board of Education is simply charged with disbursing the funds placed at its dis posal by the taxpayers. The great majority of the taxpayers of Omaha were anxious last year to set reasonable limits on the taxing power of the board which under the ruling of the court may now confiscate their property by making the school levy as high as 20 mills. When the bill for the relief of the taxpayers was before the legislature last winter a special committee of the boar: headed by Superintendent Pearse was sent to Lincoln to lobby against it. In the capacity of lobbyist Mr. Pearse proved much more efficient than he has as school super intendent. The bill for the relief of the taxpayers was killed and the bill of expenses for this lobby work, amounting, as we are told, to nearly \$10t, was taxed up against the taxpayers and paid out of the school fund. To justify the nepotism and extrava-

the cost of High school instruction in Albany, Indianapolis, Denver, Los Angeles and other towns. But even there he simply fathers figures given him by Mr. Pearse and his special champions. These figures do not in any way meet the points raised concerning the nepotism and excessive salaries to teachers of mediocre capacity whose pull has enabled them to get preferment over teachers of long service and high standing. Mr. Hayward studiously ignores also the book trust subsidy given to Superintendent Pearse under guise of pay for literary work and the marked favor shown to the school book trust and its

local agent. Annexing a Newspaper.

The only action criticised by me which Mr. Hayward does attempt to justify is the annexation of the Kellogg paper by the into corresponding coins of the United importation of the sister of the publisher States and for the immigration of a limited from Kansas City, where she was earning \$40 a month as a teacher in a grade upon their engaging in agricultural purschool and her employment as a teacher suits only during their residence in the in the Omaha High school that now pays territory and their return to their own her \$90 a month. Mr. Hayward excuses country upon ceasing to be farmers, are the this rank injustice to meritorious Omaha teachers by asserting that Mr. Kellogg had acting governor of Hawail, in his annual invested many thousands of dollars in report. Omaha and had become a resident of Omaha, thus entitling his sister to the favor accorded. Many others have invested ments do not count with Mr. Pearse or the board because they did not invest it in newspaper property that can be used to promote the ambition of Mr. Pearse to continue himself in his \$3,600 position by the election of school board candidates committed to his interests.

As to the employment of Superintendent Pearse's brother as cadet drillmaster and the compulsory uniforms, Mr. Hayward's apology is accepted.

As a heavy taxpayer I do not feel inclined to indorse the waste of school funds or the continuance of the policy that has piled taxes on us mountain high and threatens to overwhelm us unless we protest at the ballot box by the election of men pledged to break up star chamber combines and tax-eating nepotism. Mr. Cooper says that by a diligent enforcement of the law strong hopes are entertained that leprosy in the near future will be cradicated from Hawaii. The Hawaiian silver coinage to be converted into United States coin has aggregated \$1,000,000, less \$27,000 in quarter-dollars which have never been issued. It is difficult to estimate how much is now in circulation. The report urges a submarine cable.

CHURCH KEEPS ITS IDENTITY

tion of Pope's Power Under New Rule in Cuba HAVANA, Nov. 3 .- Mgr. Donato Sbar-

Sbarretti line No Fear of Disintegra-

retti, whom the pope has appointed apostolic delegate extraordinary to the Philip pines, has issued a farewell pastoral letter to the diocese of Havana, in the course of which he says: "Some thought when the church and

passengers and 700 tons of canned salmon. is a society which is perfect and independent of the sovereign. On arriving here I found that religious marriages were not cure their legality I met with some opposition, but I received assistance in a quarter where I had least expected to find !: "The intervening government, inspired by the principles of justice, truth and liberty. issued a decree recognizing their validity.

The retiring bishop advises the founding of religious schools for children and the continuation of the Saturday schools now managed by the Cuban women. Referring to the return by the state to the church of the property belonging to the latter Mgr. Sbarretti says: "This act will glorify before all nations the government which from disinterested standpoint has so decreed

American Gunboats Give Their Attention to Check Smuggling Into Island of Samur.

MANILA, Nov. 3 .- Advices from Catabalogan, Samar, say it is well known that in spite of the fact that all ports of Samar are closed, supplies still reach the insurgents. Most of this work is done during dark nights by small boats from the island of Leyte. Every available gunboat is now endeavoring to prevent this. The capture of Luktan's commissary has proved a great blow to the insurrection, as it renders

future supplies very precarious. Conditions in the island of Leyte are very annoving to General Smith. A large number of junks are used with the express object of aiding the insurgents in Samar, covering the movements of fugitives and lauding provisions and clothing,
